Assessor Comments	Vendor Bred Angus Steers, April/May 24' drop. These steers are Dollar Angus blood. Due to tough seasonal conditions steers were Weaned early in October and have been supplemented with Lucerne Hay. Steers have had their Vaccinations and were drenched in October & December with Ivomec. At assessment, steers were a pleasure to handle and averaged at 290Kgs full. Typically these steers are grown out to feedlot weights to repeat customers. Presenting in light store condition, these steers are an excellent opportunity to put onto quality feed and watch them explode. Please note one steer has an old pinkeye scar, not active and not detrimental to sight. Vendor has 3 other lots in todays sale.
