Assessor Comments: Poligolet offer a great opportunity to purchase the lead draft of their July/August drop steers with superior genetics. These steers are impeccably quiet (as you can see in the video) and have been weaned perfectly. The steers have continued to

	gain 900 grams a day since weaning. Bred from quality Te Mania genetics and run under large scale commercial conditions, these calves have handled the tough season with ease. The steers are only being offered due to the continued dry and present in fresh condition. For anyone chasing a line of top quality weaner steers that must be quiet, these cattle will not disappoint.
