The Halfpenny Green cattle can at times display a bit of run. These heifers have been well weaned and handled and only a few head showed any real stirriness. No issues when photographing and videoing. You would expect with further handling and maturity they will settle even more.

| Assessor Comments | Annual offering of the Halfpenny Green autumn drop Angus heifers. Principally Banquet & Francs blood with some Pathfinder back in cow herd, vendor spares no expense on genetics and has proven past performance in the feedlot and on grass. Heifers have been yard weaned with a drench, 7-in-1 vaccination and Multimin and present in fresh store condition. None retained, this draft is the entire drop with a 25% tail removed. The Halfpenny Green herd comprises 400 spring & autumn calving cows with genetic focus on maternal traits, above average growth, depth & bone. A quality draft of young Angus heifers bred to perform, ideal to take on to join later in the year or background into the feedlot or processor markets. |
