Assessor Comments	A line of Vendor Bred Angus Steers Sired by Texas Angus Bulls and out of an Angus cow herd. At assessment the steers weighed 303-442kg to average 363kg after an 8 hour curfew and present in a store condition. The Steers were bred in the Rocky River area east of Tenterfield, weaned in August 2024 and transported to the Vendors Tenterfield property to grow out. 2 Steers were treated for pink eye before the assessment, these have been treated prior to this and are on the mend, steers were also sprayed for Buffalo fly. A great opportunity to purchase Angus steers that are really on the move, please note similar lines in the same sale.
