	These cattle have been well handled by Stockmen, using dogs and Horses mostly. They have just been weaned so they may walk a bit but seemed good to handle and flowed through the yards well. Typical of unweaned cattle expect they will receive plenty of human interaction over the next few days		
Handled With	Bikes , Dogs , Horses , On foot		
Assessor Comments	A nice smaller line of Weaned Grassfed and Antibiotic free Angus X Steers steers. July/August drop. Sired By Angus Bulls from Ben Nevis, Booroomooka, Rennylea and Hazeldean. These calves have been weaned at assessment off cows. These steers would normally be grass fattened for a kill or taken through to a feeder program. These calves would suit a range of enterprises. They represent an opportunity to buy a nice line of well bred steers weaned and ready to go on with. Odd calf with pink eye scarring not detrimental due to being weaned this week expect some calves may develop some eye issues through the weaning process. The Fogarty cattle are well sought after and have been sold to repeat buyers in the past. These calves have been weaned onto hay/silage and will stay on hay in weaning yards until delivery. Please note some calves show more ear and sheath than southern Angus. Please note vendor has another line of Angus steers weaners in the same sale.		
Assessor	Mathew Larkings (Level 1 Accredited)		
Delivery Period	16/02/2025 to 18/02/2025 (3 days)
