	Quiet: 75 headSlightly Stirry: 23 head
	Temperament not assessed in Paddock
	Heifers were good to work with , under pressure every now and again could stir up a little and they will run when they have space as most station cattle will, but certainly not aggressive.

Notable Traits

Traits

4 Head Very slight blue eye

Assessor Comments	Wonderful opportunity to put together a large line of 590 one mark breeders heifers that were all weighed between 260-360 kg to be sold as 6 even runs of 98 out the gate. These heifers have maturity and growth on their side which should mean very good compensatory weight gain for the prospective purchaser. The Yammatee cattle have a great reputation with many feedlots throughout the eastern states and I have had good feedback regularly about their performance in feedlots. There are also 180 steers in today's sale on the same property
