Assessor Comments	A line of shorthorn heifers that are surplus to requirements. They are EU accredited, being May/June 2024 drops. These heifers are from a high quality Shorthorn herd, the vendor pays \$15k to \$20k for his bulls, and sources from renowned studs. They are extremely quiet in temperament having been handled extensively through the yards and race, with a large percentage of them being classed as docile. They will present in mainly store condition, being small to medium frames, with the odd forward store amongst the mix. They are being supplemented in the paddock with silage twice a week, to They have been extensively examined and managed for pink eye and all suspect cases have been treated with patches and Opticox. They have since recovered. At assessment there were no signs of eye issues , with anything suspect drafted out. The heifers will be inspected again before delivery. They were yard weaned on the 20th November, for a period of 21 days. Ideal to background and grow out.
