Assessor Comments	A line of well bred speckle park heifers, January/ March 2024 drop. Sired by Speckle Park bulls out of high quality Angus cows. Two of these heifers have Brangus influence in their background. They have been on natural pastures and supplemented with lick blocks, since being yard weaned in November. Generally a quiet line of heifers, however a number did stir up somewhat when put under pressure in the crush. They do have a bit of spring in their step, without being aggressive. They present in forward store to store condition, being of good medium to large frame for their age. The Vendor also has a line of steers in this same sale. Put the two lots together, and make up a b-double. Ideal as backgrounders or future breeders.
