	Buyers these heifers were an absolute treat to handle! they were easy and quiet to work through the yards and were unsettled in the crush. Once let out of the crush they just walked into the mob and stood still behind us. The triple S stud is renowned for quiet temperament in both their stud & commercial operation, with the vendors young children heavily involved helping amongst the herd. I have full confidence they will continue to be easy to handle and live up to their reputation.					
Handled With	Bikes , On foot , Vehicles					
Assessor Comments	Buyers please consider this rare opportunity to secure some genuine replacement females from a renowned stud herd. Wether you are a registered stud breeder or a commercial operation, this is an exciting opportunity to boost the matrons of your herd with these Triple S Braford heifers. This line of 4 heifers weighed from 404 - 462 kgs to average 421 kgs at assessment, these heifers display great breed character, weight for age and femininity. Their temperament is faultless and the vendor would ideally like to keep them all but surplus to stud requirements has created this opportunity for sale. Full genomic testing results are available on request. Out of the 4 heifers 2 are HPC, 1 heifer is PP and 1 heifer is HH for horns. The vendor is happy to pre treat for ticks after the auction and happy to arrange a delivery time to suit pre treatment guidelines to assist tick free buyers. Vendor has 2 more lots of heifers in this sale.
