	Heifers do run about in yards and didn't settle whilst people were in the yards with them. Did work through the race and crush quite well. Nothing tried to jump out or become overly agitated. Nothing was aggressive in yards and they could be blocked up.

Assessor Comments	A good line of 1 brand Santa Gertrudis Heifers PTIC 6-8 months to Strathmore, Gyrenda and Eidsvold Santa Bulls. Vendors are only selling due to deteriorating season and have kept heifers which have already calved out (no problem in calving). Heifers are medium to large frame and show good bone and type. Heifers are in good condition to calve and not overly fat. Heifers did want to run around in the yards and wouldn't settle. Worked well through race and crush. Nothing aggressive. Opportunity to purchase good quality santa heifers very close to calving.
