Vendor BredNo

Vendor has owned stock for More than 12 months

Stock HistoryPurchased on A+ (14th May 2021) as 13-18 month old heifers. These were bred by Chandler Pastoral Holdings, "Kyneton", Baraclidine. They are by Angus bulls out of Santa heifers and are widely regarded as being one of the top western Qld herds.

Lifetime TraceableUnknown

BloodlinesCows are all Strathmore, Cumberland & Yarrawonga Santa bloodlines by Eastern Plains Angus bulls used over their heifers.

Grazing ConditionsRunning on a great coverage of native and improved summer pastures including Green Panic. Property received 80mm 10 days prior to assessment and the country has responded accordingly.

Returned same

Burr/Seed in CoatNone noticed at assessment in tail brushes however there is Bathurst burr prevalent on the property.

HGP StatusThe owner declares that the cattle have not been treated with HGP at any period of their lives

Chemical ResidueClear - No known history.

Vendor Comments	These were recommended to me a few years ago when I purchased them and they have been outstanding cows, only selling due to a need to reduce numbers. These have just had big sappy weaners taken off at assessment. Cows were bred out of heifers.					
Joining Details	Station Mated bulls put in: 01/09/2024 bulls taken out: 10/02/2025 (163 days) Bull Breed(s): Angus To the vendors best knowledge, this lot has had no access to bulls or stags aside from stated joining period.

	Cows were very good to handle in all areas of the yards. In the force and pound they were very safe to handle. There were a few that did resent going up into the race and crush but were very settled once released. These respect dogs in the paddock and seem easy to block up from a 4 wheeler with use of the dogs.

Assessor Comments	Buyers these can only be described as a very good quality line of breeding females that were bred from one of the top western Qld Santa herds. They demonstrate plenty of frame, length and depth of barrel. They are in their breeding prime being only a couple of months either side of 5 years old and are an F1 Angus/Santa cross that are extremely hard to source anywhere in the land. You only need to see the weight of these cows to see they are very well grown. A reflection of the genetics the Chandler Family have instituted into their breeding herd over many years is shining through into these females. They cut no corners when selecting and purchasing suitable sires for their herd. These will suit a restocker to continue as a breeding proposition for at least another 5 years, the frame will indicate you will receive a very good rebate when the time comes for a processor as a CFA cow. The future of the beef industry is in great shape so don't miss out on these outfits to get involved.
