	Slightly Stirry: 6 head		Slightly Stirry: 6 head	Paddock
Handled With	Bikes			
Assessor Comments	Excellent line of EU Accredited mix aged Angus cows scanned in calf to Angus bulls to commence calving early March for 8 weeks. The "Glen Collin" females enjoy a great reputation for their "doing" ability and capacity to put calves on the ground. Ultimately these cattle are bred for their performance in feedlots or EU / MSA slaughter markets. Vendor is only selling them as they do not have any Autumn calving females in the herd. These females are joined to vendor bred Angus bulls which are bred from the Glen Collin elite herd. Industry leading sires are selected to be used in the GC elite herd with breed average birth weights and calving ease, top growth, carcass and maternal EBVs. Note: odd females with a cloudy eye not detrimental. Vendor has a total of 182 PTIC Angus females in today's sale, Cows are predominantly 2017, 2018 and 2019 drop, there is 2 older cows which can be left behind.
