Assessor Comments	A neat 22 head line of 7 months + PTIC cows, that are extremely quiet with very short turnaround for potential buyers to value add. They are probably best described as docile in the bigger yards. Cows still have big calves/weaners on them and are doing it easy in drying off conditions. Weaners will be pulled off at delivery. (Pictures of weaners in photos for reference). Cows are very good crossbred cattle and will perform and produce a heavy weaner, they are made up of Angus/Santa and Shorthorn Cross. Please refer to video for best bred makeup and to see how quiet the cows are. They are PTIC into a good quality Hazeldean blood Angus Bull. These cows have plenty of life left and would suit and crossbred breeding herd. Cows are in forward prime condition, showing good milk and maternal qualities.
