Assessor Comments	Romani Brawlin Springs are offering 36 high quality Ptic 1st calf heifers. These deep bodied well structured heifers represent the small percentage of classed in joined heifers that went in calf on the second cycle of joining and should calve over a tight 3 week period. These heifers are medium to larger framed and are joined to LBW Romani Garangula Angus bulls. These heifers have been joined and managed as classed in breeders and are on the market based entirely on the later calving date. Very good heifers that will grow into quality medium to large framed breeders. (please note one heifer with pink eye that was treated at assessment and one heifer with warts can be taken out at buyers discretion. Refer Photos)
