Assessor Comments	A really nice line of PTIC Angus heifers joined to LBW Gilmandyke & KO Angus bulls. Due to calve from Mid July for 8 weeks. Heifers were purchased with the intention of joining and selling and have been joined to bulls selected with an emphasis on but not limited to below average BW (Bulls used average +3.56), above average Gestation (-6.03), good growth (200D 47.7, 400D 88) and above average EMA (9.46) & IMF (3.67). These heifers are in good forward condition and only need maintaining until calving. Show good depth of body and nice femininity to mature into solid medium to large frame breeders.
