Traits

1 Head white on navel

Assessor Comments	This pen of extremely quiet PTIC heifers which have been bred down from stud cows stud cows have the breeding and temperament behind them to make them a perfect addition to anyone's herd, or to start with a line of well bred young females that have a lifetime of quality breeding potential in front of them. With 30 years of breeding from sires such as Al Baldridge and Paratrooper these heifers carry good genetics. Preg tested in calf to son of Te Mania Emperor these heifers make for a great future breeder. Vendor selects females with an emphasis on growth, frame, milk and temperament.
