No Pregnancy Terms apply.

Temperament

Yards Crush Paddock

	Quiet: 17 head Slightly Stirry: 3 head Stirry: 1 head	Quiet: 16 head Slightly Stirry: 4 head Stirry: 1 head	Temperament not assessed in Paddock
Handled With	Assessing the entire draft as a mob, heifers were good to handle. Most filed through crush no issue, with approx 4 head keen to move off. Noted two head as being constantly on the move and perhaps a but stirry, but generally heifers walked in the close confines and didn't push away unless hunted.		
Assessor Comments	Offering 84 excellent quality PTIC EU Poll Hereford heifers, as a run out the gate over 4 lots x 21 head. The Morgan cattle are impeccably bred, renowned performance cattle, with no expense spared on genetics sourced from Morganvale, Days & Allendale with focus on above average growth, positive fats, milk & depth and bone and are beautifully marked. Heifers have been PTIC to two high quality calving ease Poll Hereford sires, Morganvale Tarcowie T112 (top priced at Morganvale Sale 2024) and Morganvale Tetras T271. Anticipated to commence calving early March for 10 weeks, they are in ideal calving condition. The Morgan cattle typically mature into productive medium to large frame cows. With the entire drop on offer (none retained) it provides the rare chance to acquire high quality Poll Hereford genetics with all the attributes to mature into terrific matrons (offered as a run out the gate (21 head x 4 lots).
