Bikes , Dogs , On foot , Vehicles

Assessor Comments

46 PTIC Angus Heifers that are due to start calving early August for 7 weeks. They have been joined to LBW Sterita Park Angus bull picked for birth weight and narrower shoulders. This line of heifers present in a healthy forward store condition and have all the traits you want in a future breeder with wide hips and length of body. 100% were weighed to range between 360-514kg to Ave 457kg at assessment. Vendor normally grows out weaners to feeder weighs and there no reason why these heifers won't do the same if shown the right conditions. Buyers please note that the same vendor has another line of 60 PTIC heifers in the same sale (just have had a Pestiguard)
