Vaccinates	
Assessor Comments	Exceptionally good line of July/August 2024 drop Gullengamble blood merino wether lambs presenting in forward store condition. Vendor has a long history of merino breeding and has been selecting high grade Gullengamble rams with a specific focus on high weaning weights alongside recent influence from Gunnegaldrie polls with positive fat and muscle measurements. 100% of mob has been individually weighed in Auto drafter between 38-40 kg to Av 38.7KG after a 12 hour curfew These lambs have been DNA tested placing their flock profile in the top 20% for yearling weigh within the merinoselect database and placed in top 14% for ADG in last years Australian Merino Production Trial. Lambs are typically shorn at this time cutting between 3-3.5kg of 17-18 Micron wool and finished into heavy trade or export kills markets. Ideal lambs to shear and fatten into up coming winter lamb market
