Assessor Comments	This mob of ewes has reflected the very good season that the Thallon district is having at the moment. The ewes are tremendous in their condition & constitution. They are very large frame, healthy ewes and they have not been drenched for over a year. The body condition of these ewes indicates that they are doing extremely well as there are some fat score 4 ewes in there. This flock has a very good lamb marking percentage, averaging 130% indicating that these are very fertile, productive ewes that are very good mothers. With this lambing percentage it means more \$\$ in the bank from these ewes.
