Shedding Breed ContactNo known contact with shedding breeds

Skin CommentWell shorn skins.

Wool CommentLerida grown ewes are generally free growing well defined types with good nourishment.

Vendor BredYes

Stock HistoryBred from solid medium to larger framed blood merino ewes with good fertility. Annual scanning results surpass 160% annually accross their whole merino flock.

BloodlinesMumblebone Poll blood base for many years with recent introduction of Bundilla Poll genetics over the last 8 years

Grazing Conditions

Fresh improved pastures.

Returned same

Introduced Sheep

1-5 sources of sheep have been introduced onto the consignment property in the last 5 years

Footrot

All consigned sheep are from a flock that is free of Virulent Footrot

	Consigned sheep are from a flock that is NOT free of Benign Footrot or Scald Further Information: In wet years some grown females do experience sore feet from wet conditions. Foot bathing is used as a preventative but only if required. Ewes are never continually bathed. Feet were not inspected at assessment			
Lice	All consigned sheep are from a flock that is free of Lice			
Scabby Mouth Vaccination	100% of this consignment have been treated with a Scabby Mouth Vaccination prior to sale.			
Health Treatments	Dipped	17/12/2024	Parana	
	Drenched	01/11/2024	Duocare	
	Vaccinated	17/12/2024	6 in 1	Booster
Health Declaration	A National Sheep Health Declaration will be provided at Delivery AT BUYER REQUEST			
JD Approved Vaccinates	Sheep are JD Approved Vaccinates. Vendor has been continuously vaccinating all retained lambs in the flock for 21 years			
Vendor Comments	Annual sale of our surplus maiden merino ewes. Wool results are our flock average average. Ewes have performed exceptionally well with the good season.			
Joining Details	Not Station Mated			
Any Access To Rams or Stags?	To vendor's best knowledge, this lot has had no access to rams or stags.			
Assessor Comments	Good quality line of NSM poll merino maiden ewes. Ewes are well grown for their age and performing well with the good season. Ewes present even as a group and in ideal joining condition. Ewes have been classed out from a large group and a visual tail (15%) based on type and size was removed pre assessment. Ewes will mature into solid medium to larger frame matrons if given the opportunity. Lerida sheep carry excellent fertility within their operation and these sheep will carry the same performance if managed accordingly. Ewes stand sound on their feet and a very number of assessed had horn or scur as well as odd ewe with Dermo (majority of these were taken out pre assessment). Please call for further information.
