Pregnancy Terms	No Pregnancy Terms apply.			
Notable Traits	Traits 1 Head Old fly strike on back. Refer photo.			
Assessor Comments	Barrabooka flock dispersal. This line represents one mark June/July 2020 drop proven breeders. SIL to quality Wattle Park border leister sires for an April/May lambing. These ewes are well grown being large framed, thick boned, plain bodied whilst producing quality 19 micron wool. They were trail fed barley during joining to maintain a rising plane of nutrition (evident in their body condition and weight) and will remain so until delivery. Scanned 100% in lamb with dries removed and twins not identified. They are predominantly mulsed and Gudair vaccinated for buyer convenience. Purchased off Auctionplus and bred on "Ugula" at Wellington. They are Kerin Poll and Gullengamble blood. An opportunity to secure top quality ewes that have only come to the market due to the sale of the property. The ideal investment to have suckers to sell in the spring.			
Assessor	Henry Booth (Level 1 Accredited) Phone: 0428 375 816
