Assessor Comments	Neat line of well bred ewes SIL to White Suffolks for an April/May lambing. Ewes are a strong medium frame and present in a store condition. Bought as dispersal ewes ex Blanchetown SA, they were intended to be retained as breeders, but need to give way due to the season locally. Quality Tongara rams have been used and a great strike with nearly two thirds scanned to multiples (identified with a purple dot). Ewes were mouthed as sound in October and have EID tags. With a September skin, the return on these ewes should be nothing short of excellent!
