Assessor Comments	Vendor bred Poll Merino ewes, in ideal condition and well set up for a successful lambing to start early April for 5 weeks. These ewes would normally be retained however are being sold due to tight feed situation. These ewes have scanned up really well at 155%. This mob of SIL ewes offers the buyer a quick return with an early lamb, then sell the wool and mutton after weaning in late winter. Ewes with dots are singles, unmarked are the multiples.
