Mob handled very well in paddock being well handled with dogs and buggies. Moved through yards well with a very small percentage slightly flighty. Good in crush when weighing with a reasonable percentage moving in crush. . Reasonable percentage resented being in head bale. steers settled well once released. Photos and videos post weighing illustrate the steers well handled nature.

Assessor Comments	A quality run of Brangus steers, coastal bred and run. Vendor purchased lead runs of local weaners last season and on offer is the lead draft. Steers are moving ahead on quality pastures and are setup to grow on into quality heavy feeders or bullocks. Well handled cattle that are a credit to the vendor. All steers are #4 and have been pre treated to assist with clearing if required. Offering comes with the agents highest recommendation.
