Assessor Comments	Buyers a great opportunity to secure a line of VGQ store condition Black steers. These steers are bred out of large framed Angus and Ultra black cows by Lawson and Bulliac stud Angus sires, they show predominately good bone, length and depth and have the frame with no fancy condition. Steers had a very trying season after weaning and are now starting to power ahead on good feed after a break 2 months ago with still some good compensatory gains to be had. This is the Angus Phenotype draft out of the Hindmarch no4 steers purposely drafted to suit lucrative 75%Angus feeder steer market, alternatively they will suit all Grassfed Bullock programs as no Antibiotics, grain or HGP in their lives. Please note 2 steers have slight blight scarring in one eye and 2 with white on underbelly neither considered detrimental. Please note steer with scurs in photos was removed and put in crossbred mob. Vendor has 4 decks of crossbred brothers this sale
