Handled With	Steers have all been well educated through yards with a big emphasis on quiet stock handling at weaning. Goombie weaners are highly regarded for the quietness and being well educated through the yards. Aerial (Helicopters, gyro's and planes) , Bikes , On foot , Vehicles		
Assessor Comments	Buyers an opportunity to buy 3 decks of VGQ HGP free Crossbred steers. These steers are best described as medium to large frame relative to age. Steers were weaned in August 2024 with a full weaning program on hay in the yards & have spent the last 6 months in a mulga paddock. A very reputable line of cattle for sale that will be ideal to put away on grass and grow out to heavier weights. Steers show good bone, length & confirmation and have a good performance record on both grain or grass. Buyers plenty of compensatory gain to be had with drying off season being experienced. Note 2 x family brands in this line.
