Heifers are well educated through yards at weaning with a big emphasis on quiet stock handling. Odd heifer stirred in crush but settled straight away once back in the mob.

Assessor Comments	Buyers an opportunity to buy 2 decks of PTE good quality Angus & Belmont Red X heifers that present with plenty of compensatory gain. Heifers show all the right breed characteristics with good bone, plenty of length & softness throughout this line and are best described as medium to large frame. Heifers were weaned and educated in August 2024 and have been running in soft red mulga country for past 6 months. This line would suit to put onto fresh feed and grow out to heavier weights or join to bull of choice for a trade/future breeding. These heifers are ready to go straight into the paddock. At assessment 1 x head was seen with a small wart on eye lid but not seen as detrimental.
