Comment on Fat Score 1 Cattle Score 1 Cattle in good condition and being light cattle will travel extended distances if loaded as per Fit To Load Guidelines

Vendor Bred No
 Vendor has owned stock for 6-12 months
 Stock History Majority of heifers were purchased in as weaners approx 7-8 months ago, with small % of vendor bred heifers in lots.
 Lifetime Traceable 100% of cattle in this lot are Lifetime Traceable
 Bloodlines Wyloo & Warrawagine Station in WA using Valera Vale and Munda Droughtmasters

Grazing Conditions Heifers have been grazing on good stands of low Mulga with country drying off a large body of summer grasses such a Mulga Oats and Mitchell
 Returned to: Heifers have been trucked to another property for freight convenience and will be grazing on good stands of Mitchell and Buffel grasses

Burr/Seed in Coat No Burr or Seed of weeds declared noxious observed in the coats at assessment

HGP Status The owner declares that the cattle have not been treated with HGP at any period of their lives
 Chemical Residue Clear - No known history.
 J-BAS Score 6

Vendor Comments Sale of pregnancy tested undetectable heifers with PTIC heifers being kept to grow herd.

Joining Details	Station Mated bulls put in: 05/11/2024 bulls taken out: 19/02/2025 (107 days) Bull Breed(s): Droughtmaster, Santa Gertrudis To the vendors best knowledge, this lot has had no access to bulls or stags aside from stated joining period.		
Preg Tested?	Yes, this lot was pregnancy tested, by Matt Crowley (Non-Vet Contractor) on 19/02/2025. 90 Head (100%) NDP (or Not Preg Tested). Certificate Available.		
Pregnancy Terms	All heifers have been scanned undetectable for buyers confidence.		
Other Joining Details			
Temperament	Yards	Crush	Paddock
	Quiet: 85 head	Quiet: 78 head	Temperament not assessed in
	Slightly Stirry: 5 head	Slightly Stirry: 11 head	Paddock
		Stirry: 1 head	
	Heifers flowed well through yards, some were agitated when isolated and would need to be slowed through gates but were quite calm in bigger yards. Temperament was not unusual and more work would see big benefit.		
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes , On foot		
Notable Traits	Traits 2 Head Fly bite 1 Head Slight dog bite 1 Head Warts on body 1 Head White star on head 3 Head White underbelly not unusual		
Assessor Comments	180 Droughtmaster & Droughtmaster Cross heifers on offer split over two lines of even and fair run out the gate of 90 head for each lot. Vendor also has a third lot of 54 head of Crossbred heifers is the same sale. Heifers are showing excellent attributes of the Droughtmaster Breed, growth for age, bone and would suit a breeding operation, alternatively I would expect them to perform on feed also. Heifers were weighed after 24 hour feed curfew and pregnancy testing but still handled well after being in yards for so long. Heifers present in fresh condition running in typical western Mulga country and will really bounce on good feed. Majority of heifers were purchased in from Wyloo & Warrawagine Stations in Western Australia as light weaners and have grown out well. Based on Munda & Valera Vale bloodlines. There is a small percentage of vendor bred and other purchased in heifers. Heifers have been scanned ND, with bulls taken out at assessment.		
Assessor	Sam Clements (Level 2 Accredited) Phone: 0455 033 292		
Delivery Period	21/02/2025 to 24/02/2025 (4 days)
