Assessor Comments	A good quality line of British cross heifers that are ideal backgrounding cattle, heifers have plenty of frame and present in fresh forward condition. Heifers have been recently weaned and have come through the process really well and are now ready to bounce away given some higher nutrition, a great chance to take advantage of current market prices to secure a good investment article that can only go one way. Heifers are grass fed and antibiotic free and declaration is available on request. please see another line of the cloured heifers out of the same herd in this same sale.
