Vendor Comments

Anual draft of weaned heifers. Heifers are quiet to handle and are on the improve with the recent growth of fresh grass.

| Assessor Comments                     | A small but good quality line of British/Euro cross heifers that are ideal backgrounding cattle, heifers have plenty of frame and present in fresh condition. Heifers have been recently weaned and have come through the process really well and are now ready to bounce away given some higher nutrition, a great chance to take advantage of current market prices to secure a good investment article that can only go one way. Heifers are grass fed and antibiotic free and a declaration is available on request. please see another line of the straight black heifers out of the same herd in this same sale, a perfect deck load. |                                          |                                     |
