Assessor Comments	An outstanding quality line of Bongongo blood Angus heifers. These heifers are very quiet to handle, showing plenty of muscle, frame and quality with leading genetics used from Bongongo Angus Stud including an AI program conducted. Would be ideal heifers to background to heavier feeder weights or could be fed for most Domestic programs or an Angus branded program. Plus a potential for the heifers to be joined into a breeding program. Heifers that carry a Blue Management Tag (37 head) have never been joined, while the heifers without tags (23 Head) were classed heifers and joined for 6 weeks in the spring and have been Pregnancy Tested Empty. 4 heifers noticed with old Blue eye. No Grain & No Antibiotics.
