Assessor Comments	Goolgumbla Blood Wether Lambs for sale as annual turnoff. Entire drop of 2024 Widgeegoara wether lambs with 8% tail removed. Wether lambs from Widgeegoara have been excellent sheep both in feedlots and as wool cutters. The flock is heavily classed annually by Chris Bowman for Wool type, cut and structure. Average Flock micron is approx. 19 micron cutting 6.5kg of wool. These lambs are showing good characteristics to grow into heavy kill lambs or export wethers with ewes doing an excellent job in a drying off season. These lambs are recently crutched and present in ideal condition for backgrounding.
