Assessor Comments	A pleasure to assess a very well bred mob of weaned Merino wether lambs. Lambs have been grazing on Lucerne crop and present in fresh store condition with some clover burr mainly on belly's. Approx. a third present with horn as vendor only had 1 horn ram the rest being poll genetics. weighed 30kg - 44kg full at assessment. Lambs carry the frame and genetics to develop into export lambs or large woolgrowers to keep and harvest. A small tail were removed at assessment. buy with confidence.
