Assessor Comments	Charmac Poll Merino Prime ewe lambs will please. The Stud purpose breeds the Merino for high meat:fat:bone ratio aiming for higher dressing percentage which has been the main focus over the past 11 years of breeding. Ewes are freshly drenched and have good stomachs and so will transfer onto new diets very well and with little trouble. Outstanding ewe lambs which will suit any program going forward if your looking for wool cutters to which they have cut an avg of 17 micron in previous shearing.
