Totals			99%	1%	100%

Comment on Fat Score 1 Cattle	Steers display minimal fat cover generally due to recent rain and deteriorating poor season prior to rain. currently on a rising plane of nutrition, therefore strong to travel 800 km with a break required. If travelling further then 800km, after a 24 hour spell steers appear to be very capable of going further.
-------------------------------	--

Vendor Bred	Yes
Stock History	Steers are out of Quality Angus Cows, by Quality Angus bulls. Herd previously owned by Teys, purchased with a property transaction. Black Angus genetics by Tex Angus & Sandon Glenoch.
Lifetime Traceable	100% of cattle in this lot are Lifetime Traceable

	Quiet: 70 head		Quiet: 70 head				
	Slightly Stirry: 1 head		Slightly Stirry: 3 head				
	Steers can be anxious under pressure in headbale. Settled once in cooler after processing. Used to overhead draft only. On vehicle inspection Steers were generally settled.						
Handled With	Aerial (Helicopters, gyro's and planes) , Bikes						
Assessor Comments	EU Accredited, Quality line of BLACK Angus and Angus cross STEERS, ex “Tey Brothers” (Dams included in property transaction). An impressive line of Flatback steers offering an astute buyer the opportunity to acquire a line with plenty of frame in light condition to take advantage of a large COMPENSATORY GAIN on fresh productive pasture. Mostly good confirmation, depth and length contributing to heavy carcase dressing weights when fat. Well handled, displaying generally good temperament. Good quality, large framed feeder steers ideal to take on to background to a feedlot or grass bullocks. Approximately 5 steers in this line noted for a small blue scar on eye, not appearing to be majorly effecting vision.Two B Double Mobs of the same steers to make 6 decks. Will be drafted in half by close of the gate due to tight weight group and weighed of scales fair outcome expected. Also two x 4 deck lots available this sale
