Assessor Comments	"Horse Creek" have presented a fantastic line of fresh and sappy Ultrablack/Droughtmaster cross steers. Steers are by 'Palgrove Skyfall', a bull with a great temperament and commendable EBVs. They are only 4.5 - 7 months old, they are extremely soft steers that show good weight for age, growth and depth of barrel and present a fantastic opportunity to value add. Considering these are not as yet weaned they are relatively quiet when separated from their mothers. They will remain on their mothers up until delivery and are ready to have some feed put in front of them to power away at weaning. Vendor has heifers in todays auction as well. These were actually in the yards for a 12 hour curfew and were separated from the cows overnight so a partial delivery adjustment has been applied. Buyers please note, due to recent castration steers purses are still falling away but all are deemed clean and healthy.
