Steers are unweaned and did want to run about in yards. With weaning would expect steers to quieten down and become easier to handle.

1 Head	Slightly larger sheath (photo attached)

Assessor Comments	A very good line of unweaned Angus & Angus Cross Steers. Steers are vendor bred with some steers being out of cows that were purchased PTIC. Steers are well grown and show good bone and muscling. Being unweaned steers did want to run about in yards but with correct weaning should settle down. 1 Steer treated with orbenin cream and will require follow up treatment. Steers have potential to be very good trade/export feeders or take through to heavy bullocks. Note vendor has another lot of steers and 2 lots of heifers this sale.
