Steers are unweaned therefore do run about in the yards. With weaning would expect steers to settle down very well.

Assessor Comments	A very good line of young Angus & Angus Cross Steers. Steers are unweaned and do want to run about in yards but with correct weaning should settle down. Steers are vendor bred with some being out of Cows purchased PTIC. Steers are well grown and show good bone and muscling. Note 3 steers treated with Orbenin Cream and may require follow up treatment. Steers that have the potential to be very good trade/export feeders or take through to heavy kill cattle. Not many of these light weight weaners available so this is your opportunity. Vendor has another lot of steers and 2 lots of heifers available this sale.
