Assessor Comments	2nd draft of these outstanding Autumn drop calves would be perfect for some upcoming winter cereal. They have been weaned since December and been going ahead on Forage Sorghum crop. These heifers are in great order and certainly good enough to finish on grass but have the hybrid vigour and carcass shape that will yield the house down. They are in a very tight weight range from 300 to 360kg to ave 336kgs full. The cattle have been well handled and in both the paddock and yards they are a pleasure to work and draft. These calves are the real deal and are sure to impress.
