Assessor Comments: 100 Angus steers weighed between 360-380 kg to average 370 kg full at assessment. Late Spring 2023 drop. Vendor bred steers that have been born on Southeast SA and NSW pastoral properties that have been running in the South for 9 months. Hardy steers that will perform in any operation. Steers have done it tough in a very dry Autumn and Winter period but have turned the corner in Spring. These steers will turn themselves inside out shown feed. Proven high growth and

	high IMF in finished carcasses. Teys Grasslands and Greenhams Never Ever accredited producer. These cattle keep improving every year. Vendor has another lot of 100 in todays sale. Please note 20 of these steers are running on Woondooma 15kms away to fill truck.
