| Assessor Comments                     | Annual Jamestown sellers. A well bred line of young ewes, with the grown flock averaging 7-8 kilos of unskirted wool annually. The Yednalue ewe hoggets are classed annually at 30-50% by Mernowie stud principals Ian & David Rowett, which is evident in the evenness in wool & body type. Plenty of growth left in these young ewes, with 3 out of 12 ewes mouthed still having lambs teeth. |
