Assessor Comments	Classed in breeding ewes, an opportunity not to be overlooked. Due to a loss of lease property, these ewes have become available as part of a classed in breeder, flock reduction. Bred from large frame leachim blood ewes and sired by Hyfield blood rams. White Park is known for producing good wool cuts of very appealing, bright white wool with excellent definition and nourishment. Proven breeders, these ewes are in the prime of their life and will not disappoint. They had only had their lambs weaned just over a week prior to assessment and this showed in the weights. Weighing from 44-75kg, ave 62kg, at assessment. They will continue to move forward and join up to the ram of your choosing with ease. M/TS and up to date with health treatments, buy with confidence.
