Assessor Comments	Salamanca Past Co are offering 330 August/September 2024 Drop lambs that are December Shorn and started on Ad Lib Oats and Corn in a self feeder and Clover Hay and grazing a short forage crop so are well adjusted to different feed types. They weigh 33.7 kg average curfewed and have very good fat cover for young lambs. These Lambs are normally finished to a 24kg carcase to suit the Supermarket Trade but would definitely go on to heavier weights. They are by High Indexing White Suffolk Rams with the focus on Growth and Muscle and the Maternal side is focused on Fertility and Growth. No expense is spared in buying Maternal or Terminal Rams. These lambs will certainly continue go on on the right feed regime. Only being offered because of seasonal conditions.
