Assessor Comments	A line of 680 2nd X lambs. Lambs were bred by terminal rams on growth in muscle and PWW. breeders have been purchasing rams ranked in the top 10% for terminal carcass production. These lambs mother's are medium-large framed ewes that are by the "Alderside Park' Stud Border Leicester rams. The combination of these bloodlines ensures that these lambs have some of the best genetics to maximise growth rates on chosen feed. These lambs present as a great store article, 46.8kg at assessment, these lambs will perform nicely shown the appropriate nutrition. Lambs have been grain trained.
