Assessor Comments	Offering 620 July/August drop 2nd cross feeder lambs. 100% of these lambs weighed 32-53kg to average 43kg at assessment. A large majority of these lambs are sired by poll Dorset and a small percentage sired by Suffolks and breed out of 1st cross (BLM) and composite ewes. These lambs would excel on high protein diet and will not take long to finish into heavy trade or export lambs. They are in fresh store to forward store condition and are ideal lambs to feed for the winter markets. Approx 15 lambs have tails.
