Assessor Comments	These Vendor bred XB store lambs are ideal feeder lambs. Being Jul/Aug drop, they are ideal lambs to fatten for the winter lamb market. They have been shorn in the last few weeks, and have been inducted onto a full feedlot pellet ration in confinement. Lambs only being sold to make room for ewes coming into confinement and to stretch out feed reserves. These lambs are well bred, and well set up to fatten. Individually all weighed thru auto drafter 36-44kgs range to Ave 40.5kgs at assessment.
