Assessor Comments	A good to very good line of merino ewes, June shorn, and scanned in lamb to Hillside white Suffolk rams to commence lambing at the end of March. They are predominantly large framed sheep with a big skin on their back. Majority are rising 5 year old purple tags, with a few the year younger. One older white tag was faulty mouth, all other ewes that were mouthed (15 head) were all good solid mouths. Ewes were crutched the day after assessment. Excellent opportunity for a quick return on this lot.
