Assessor Comments	A great opportunity to purchase a smart line of Angus steer weaners, 8-9 months of age (June/July 2024 drop), yard weaned at assessment. These steers are by Waitara and Tattykeel bloodlines and are well grown for age. They present in fresh forward condition ideal to grow out for feedlot, trade or export markets with a small tail taken out. In the past they have been normally retained and sold at feedlot weights late winter early spring. 1 steers has a white ring size of a soccer ball over ribs (see video), 1 steer has blue scar on one eye. Steers are well handled and are up to date with all animal health, with all the work done these steers are ideal to tuck away on crop over the winter.
