	Steers have been very well handled at weaning, along with regular feeding, making them very quiet to handle. They were 'bang' tailed at weighing for ease of drafting/identifying - a few steers were a bit nervous when their tail was grabbed in the crush, (listed above as slightly stirry) as soon as their tail was dropped, they settled, exited at a walk and were relaxed in		

Handled With	the yards again. Very quiet to walk amongst on foot in the paddock for photos. Young steers that were hard to fault. Bikes , On foot , Vehicles
Notable Traits	Traits 1 Head Minor Eye Blemish (1 eye only) 6 Head Small splash of white on flank
Assessor Comments	Fresh, healthy line of very well bred Rennylea/Ardrossan Angus Blood Steers to take on. Big boned, high growing steers that hold a lot of weight and will make a cracking bullock. Have been very well handled throughout their weaning and are a pleasure to share the yards with, all leading up the race with ease and exiting the crush at a walk. Steers are all in store condition and have continued to go forward since weaning. Steers with very good weight for age, (despite a very trying season!) that will have the scope for any market.
